

EMBL Conference

# BioMalPar XIX:

biology and pathology of the malaria parasite

23 – 25 May 2023 | EMBL Heidelberg and Virtual

[#EMBLMalaria](https://twitter.com/EMBLMalaria)

Adam, Abdulrahman Idoko		
<b>Developing an experimental system for investigating parasite-IgE interactions</b>		29
Adams, Yvonne		
<b>Brain Barriers: Cerebral Malaria and the Choroid Plexus</b>		30
Aheto, Justice Moses Kwaku		
<b>Mapping under-five child malaria risk that accounts for environmental and climatic factors to aid malaria preventive and control efforts in Ghana: Bayesian geospatial and interactive web-based mapping methods</b>		31
Alder, Arne	Presenter: Matz, Joachim Michael	
<b>The role of Plasmodium V-ATPase in vacuolar physiology and antimalarial drug uptake</b>		32
Alvarado Valverde, Jesús		
<b>Comparative analysis of motif-mediated protein-protein interactions among Plasmodium species</b>		33
Ambekar, Sushma	Presenter: Absalon, Sabrina	
<b>Peering into the pore: Ultrastructure expansion microscopy reveals the landscape of nucleoporins during intraerythrocytic proliferation of rodent malaria parasites.</b>		34
Anaguano-Pillajo, David		
<b>Plasmodium falciparum requires two rhoptries to invade host red blood cells</b>		35
Angage, Dimuthu		
<b>Pan-species specific anti-AMA1 i-body potently inhibits invasion of host cells by both liver and blood stages of Plasmodium</b>		36
Araki, Tamasa	Presenter: Annoura, Takeshi	
<b>Transgenic Plasmodium cynomolgi reporter line expressing GFP-Luciferase to track liver-stage growth and dormancy</b>		37
Assaraf, shany		
<b>The uORF regulating pregnancy malaria encodes for a novel protein involved in ER Stress Response.</b>		38

Atchou, Kodzo

**Expansion microscopy reveals microtubule dynamics during the liver stage development of Plasmodium berghei and confirms lysosome fusion with the parasitophorous vacuole membrane.** 39

Baptista, Vitória

**Targeting the unresolved Plasmodium falciparum hemozoin synthesis pathway** 40

Böhme, Ulrike

**Resources for malaria researchers at the Eukaryotic Pathogen, Vector and Host Informatics Resources (VEuPathDB.org)** 41

Bolscher, Judith

Presenter: Bezemer, Bodine

**Improved P. falciparum liver stage drug screening using serum-free B27-SB431542 medium** 42

Bouzón-Arnáiz, Inés

Presenter: Fernández-Busquets, Xavier

**Protein aggregation in the malaria parasite: What for?** 43

Bozdech, Zbynek

**The artemisinin-induced dormant/persister stages of Plasmodium falciparum exhibit hallmarks of cellular senescence and drug resilience** 44

Bravo, Patricia

**Pfmdr1 gene contributes to the mechanism of resistance of hydroxy-benzanilides class in Plasmodium falciparum** 45

Bulloch, Michaela

**Doxycycline inhibits both apicoplast and mitochondrial translation in Plasmodium falciparum** 46

Bulloch, Michaela

**Doxycycline inhibits both apicoplast and mitochondrial translation in Plasmodium falciparum** 47

Calit, Juliana

Presenter: Bargieri, Daniel

**Novel transmission blocking antimalarials identified through high-throughput screen of Plasmodium berghei Ookluc** 48

Carruthers, Lauren	
<b>Characterisation of the Apicomplexa-specific zinc-finger protein (ZINGER) family in Plasmodium</b>	49
Castellano, Casilda	
<b>The genetic landscape of origins of replication in Plasmodium falciparum.</b>	50
Castro Pena, Carolina	
<b>The phosphatase UIS2 is needed for protein export in malaria parasites</b>	51
Chmielewski, Jill	
<b>Functional and immunological characterisation of merozoite surface proteins 4 and 5 in Plasmodium knowlesi</b>	52
Christiane, Donkeu	
<b>Immunolocalization and functional characterization of PFE1445C: a novel integrin alpha-like cell adhesion protein in Plasmodium falciparum</b>	53
CIARDO, MARIAGRAZIA	
<b>DEVELOPMENT OF MOLECULAR ASSAYS ON PLASMODIUM FALCIPARUM GAMETOCYTES FOR FUNCTIONAL ANALYSIS AND NOVEL DIAGNOSTICS ON MALARIA PARASITE TRANSMISSION</b>	54
Couple, Justine	
<b>Investigating Plasmodium falciparum genome conformation at a nucleosomal resolution</b>	55
Cox, Mimi	
<b>Transcriptional responses to early Plasmodium falciparum infection by two Anopheles species.</b>	56
Crispim, Marcell	
<b>Identification of a novel isoprenoid salvage pathway in Plasmodium falciparum</b>	57
Cronshagen, Jakob	
<b>SLI-based activation of specific var genes provides versatile tools to study PfEMP1</b>	58

Dao, Francois	
<b>Unraveling intraerythrocytic development and molecular mechanisms of RBCs invasion in Plasmodium malariae</b>	59
Deb, Bijayeeta	
<b>What genetic factors in humans contribute to malaria severity?</b>	60
Deora, Nimita	
<b>Interspecies interactions in Plasmodia mixed infections: putting the first step forward</b>	61
Deora, Nimita	
<b>Mixed approaches to address Plasmodium mixed infections</b>	62
Deshmukh, Bhagyashree	
<b>Assessing the efficiency of multi-protein chimeric antigens targeting the blood stage of Plasmodium falciparum using microfluidic systems</b>	63
Diaz Terenti, Barbara	
<b>Alternative splicing and its regulation in the malaria vector Anopheles gambiae, an assessment of different tissues and infection status</b>	64
Dietrich, Melanie H.	
<b>Blocking interactions of Plasmodium falciparum 6-cysteine proteins using inhibitory nanobodies</b>	65
Dollon, Jacques	
<b>Circulation of Anopheles gambiae complex and malaria transmission during the dry season in Djoumouna and Ntoula villages, Republic of Congo</b>	66
Donsante, Samantha	Presenter: Siciliano, Giulia
<b>An in vivo humanized model to study homing and sequestration of Plasmodium falciparum transmission stages in the bone marrow</b>	67
DonVito, Sophia	
<b>Reticulocyte binding-like proteins as potential vaccine targets for Plasmodium knowlesi and Plasmodium vivax</b>	68

Dooley, Nick		
<b>Activation of cytotoxic vd2 gamma-delta T cells during primary Plasmodium falciparum infection</b>		69
Duarte Júnior, José Wandilson Barboza		
<b>Co-infection with Mayaro virus prevents Plasmodium berghei ANKA-induced neuropathology and lung injury</b>		70
Farhat, Dayana	Presenter: Vignolini, Tiziano	
<b>m6A-mediated translational regulation during Plasmodium falciparum gametocytogenesis</b>		71
Frangos, Sophia		
<b>Implementation of deep-learning image segmentation to study KAHRP export kinetics throughout the intraerythrocytic life cycle of P. falciparum</b>		72
Fürle, Kristin	Presenter: Thomson Luque, Richard	
<b>Immunization with the Plasmodium falciparum full-length MSP1 malaria vaccine candidate SumayaVac-1 elicits multifunctional IgMs</b>		73
Galloway, Lauren		
<b>Unravelling the nature of three distinct Plasmodium falciparum schizont populations</b>		74
Gancheva, Maria	Presenter: Wilson, Danny W.	
<b>Host-directed therapy for malaria: Host cell signalome as a target</b>		75
Geoghegan, Vincent		
<b>Exploring the diversity of hypervariable RIFINs and their interactions with human immunomodulatory receptors</b>		76
Gibbins, Matthew		
<b>Imaging Plasmodium berghei gametocytes in the skin of mice</b>		77
Guttery, David		
<b>Meiosis in Plasmodium: how does it work?</b>		78
He, Buyuan		
<b>Towards a Plasmodium 3D cell atlas</b>		79

Hentzschel, Franziska	
<b>Two flagellar proteins stabilise axonemal doublet microtubules to enable motility of Plasmodium male gametes.</b>	80
Höppner, Yannick Daniel	
<b>Impact of longitudinally acquired host immunity on P. falciparum var gene expression</b>	81
Ibrahim, Amy	
<b>From genome to function: The first global genomic analysis of P. malariae parasites provides evidence of pyrimethamine resistance</b>	82
Imamu, Mudessir Temam	
<b>The biology and pathology of the malaria parasite in the Case of Ethiopia</b>	83
Inklaar, Maartje	
<b>Two new Pfs230 domains as a target for transmission-blocking antibodies</b>	84
Izrael, Richard	
<b>Role of a base modification in the antigenic variation of Plasmodium falciparum parasites</b>	85
Jalovecka, Marie	
<b>Functional Analysis of Babesia divergens Calcium-Dependent Protein Kinases</b>	86
Jones, David	
<b>Febrile heat stress increases phosphorylation and expedites trafficking of P. falciparum's host-exported proteins</b>	87
JORELLE ANGE, TCHAKOUNTE	
<b>Understanding the intra-host dynamics of Plasmodium falciparum infections with amplicon sequencing</b>	88
Kanyal, Abhishek	Presenter: Yang, Annie S. P.
<b>Home sweet home: dissecting host-pathways essential for effective Plasmodium falciparum infection in primary human hepatocytes</b>	89

Kaur, Davinder		
<b>Detection of Single Nucleotide Polymorphism in Chloroquine resistant Pvmdr-1 and Pfcr1 genes of P. vivax and P.falciparum clinical isolates by using Loop Mediated Isothermal Amplification</b>		90
Kiper, Edo		
<b>Antimicrobial peptides with ability to target the malaria-causing Plasmodium falciparum</b>		91
KIWENDO, RONALD	Presenter: KIWENDO, RONALD	
<b>Combating Malaria Scourge Using God Given Pharmacy (Natural Plants/Flowers) a Case Study of Uganda</b>		92
Kobayashi, Yukino		
<b>Contribution of Actin-like proteins Alp1 and Alp2b in Plasmodium progression</b>		93
Kok, Michelle		
<b>Development of a screening toolkit for antimalarial mode-of-action determination in gametocytes</b>		94
Kuehnel, Ronja	Presenter: Brochet, Mathieu	
<b>A Plasmodium membrane receptor platform integrates cues for egress and invasion in blood forms and activation of transmission stages</b>		95
Kumari, Jyoti		
<b>'Erythritol', safe sugar alcohol exhibits multi-stage anti-malarial activity by permeating through the Plasmodium falciparum aquaglyceroporin channel</b>		96
Lees, Rebecca		
<b>Role of the merozoite surface protein 1 (MSP1) complex in P. falciparum egress from erythrocytes</b>		98
Levytska, Viktoriya		
<b>Efficient Iron Uptake via a Reductive Mechanism in Babesia divergens</b>		99

Ling, Dawson	Presenter: Bullen, Hayley	
<b>A pyridyl-furan series developed from Merck's Open Global Health Library blocks red blood cell invasion and protein trafficking in Plasmodium falciparum through potential inhibition of the parasite's PI4KIIIb enzyme.</b>		100
Ling, Dawson		
<b>MMV687794 impairs blood-stage Plasmodium falciparum invasion by targeting a putative lysophospholipase in the rhoptries</b>		101
Loesbanluechai, Duangkamon		
<b>Interrogating genetic determinants of P. falciparum vector transmission</b>		102
Lol, Juan C		
<b>Insecticide resistance in the Neotropical mosquito Anopheles albimanus, a key malaria vector in Central America</b>		103
Lopez Farfan, Diana Carolina		
<b>Exploring SARS-CoV-2 and Plasmodium falciparum coinfection in human erythrocytes</b>		105
Lopez Farfan, Diana Carolina	Presenter: Parres-Mercader, Marina	
<b>Prevalence of SARS-CoV-2 and co-infection with malaria during the first wave of the pandemic (the Burkina Faso case)</b>		106
López, Celia		
<b>Identification of parasite killing kinetics using an in vitro parasite viability assay based on imaging readout</b>		104
Ludivine, Royer		
<b>The phosphodiesterase inhibitor Tadalafil impacts the mechanical properties of Plasmodium falciparum ring stages-infected red blood cells</b>		107
Luo, Peiyuan		
<b>Investigate the mode of action for bis-1,2,4-triazines, a novel class of antimalarial</b>		108
Lyons, Frankie		
<b>Nanobodies targeting malaria transmission-blocking candidate</b>		109

Maixner, Frank	Presenter: Kilian, Nicole	
<b>Microscopic evidence for malaria infection in viscera tissue of the Medici family</b>		110
Malhotra, Rashim		
<b>Investigating the role of antisense transcription mediated gene regulation in Plasmodium falciparum</b>		111
Martinez, Francisco		
<b>Identification of immune correlates that are associated with protection against Plasmodium vivax blood stage challenge following immunization with recombinant PvDBPII</b>		112
MATHIS, Emilie		
<b>The role of phosphorylation in Plasmodium falciparum cell cycle arrest</b>		113
Michie, Kyle		
<b>Exploring the role of PfAAT1 in the emergence of Plasmodium falciparum Chloroquine Resistance in Colombia</b>		114
Moskovitz, Re'em	Presenter: Pholcharee, Tossapol	
<b>Structural basis for the interaction of Plasmodium vivax Duffy-binding protein and human DARC receptor in reticulocyte invasion</b>		115
Murai, Shunsuke		
<b>Protective efficacy of viral-vectored P. falciparum vaccine against mutated parasites in a murine model</b>		116
Muteru, Kelvin		
<b>Dual host-pathogen transcriptome analysis during asymptomatic and symptomatic malaria infections</b>		117
Nalubega, Mayimuna		
<b>Age-dependent differences in composition and maintenance of malaria antigen-specific CD4 T cells</b>		118
Nayak, Bandita		
<b>Indispensability of protein neddylation for transmission of Plasmodium berghei from mammalian host to mosquito vector</b>		119

Nayak, Bandita		
<b>Indispensability of protein neddylation for transmission of Plasmodium berghei from mammalian host to mosquito vector</b>		120
Ngotho, Priscilla	Presenter: Peedell, Megan	
<b>Elucidating the dynamics of surface antigen expression during gametocyte maturation</b>		121
Nguyen, Tra		
<b>Resistance to Ivermectin in Plasmodium falciparum</b>		122
Nguyen, Tra		
<b>Resistance to Ivermectin in Plasmodium falciparum</b>		123
NHIM, Sandra		
<b>Heterochromatin changes during the initial steps of Plasmodium falciparum gametocytogenesis</b>		124
Nikolova, Vella		
<b>A pharmacological inhibitor of glucose-6-phosphate dehydrogenase (G6PD) to interfere with the propagation of Plasmodium falciparum</b>		125
Nyarko, Prince		
<b>Plasmodium falciparum genomes and transcriptomes from asymptomatic chronic infections in The Gambia – a longitudinal cohort study</b>		126
Okafor, Adaobi		
<b>In silico analysis of regulatory elements of Plasmodium berghei stage-specific genes</b>		127
Olaniyan, Niniola		
<b>Developing PfCLK1 as a potential antimalarial drug target</b>		128
Opadokun, Tosin	Presenter: Rohrbach, Petra	
<b>Proteomic analysis of stage specific Plasmodium falciparum-infected RBC extracellular vesicles reveals distinct profiles</b>		129

Ortega, Diana Carolina		
<b>Correlation and ancestral reconstruction for the allele frequencies of two malaria resistance mutations in human populations</b>		130
Osman, Tasneem		
<b>Management of Invasive American weed Parthenium hysterophorus could prevent spread of mosquitoes borne diseases</b>		131
Otoboh, Stanley		
<b>Genetic validation of the function of PfEMP1 in Plasmodium falciparum rosette formation using CRISPR-Cas9 genome editing.</b>		132
Paonessa, Giacomo	Presenter: Siciliano, Giulia	
<b>Gametocyte-specific and all-blood-stage transmission-blocking chemotypes discovered from high throughput screening on Plasmodium falciparum gametocytes</b>		133
Pazicky, Samuel		
<b>Explorations of P. falciparum complexome for future antimalaria drug discoveries</b>		134
Pérez Cantero, Alba		
<b>De novo heterochromatin nucleation and maintenance in Plasmodium falciparum</b>		135
Piel, Laura	Presenter: Santos, Joana	
<b>Transcriptional regulation during switching of invasion pathways by P. falciparum</b>		136
Pilate, Kwi		
<b>Mosquito diversity and behavioral activity of Anopheles species across different altitudes and seasons along the slopes of mount Cameroon</b>		137
Plastina Astro, Thafne		
<b>TRANSCRIPTIONAL CONTROL OF PLASMODIUM KNOWLESII IN RESPONSE TO STRESS</b>		138

Plutowski, Laura	
<b>An experimental tool to study exportin-1-dependent nuclear export in Plasmodium falciparum</b>	139
Pradhan, Sabyasachi	
<b>Factors favouring successful adaptation of P. falciparum to in vitro culture</b>	140
Preira, Claude Marie François	
<b>Role of the oocyst rupture protein complex in the rupture of the Plasmodium oocyst</b>	141
Rajendran, Vinoth	
<b>A Cationic lipid Stearylamine Displays Fast-acting Antimalarial Activity Against Blood-stage Forms of Plasmodium falciparum in Culture</b>	142
Ramaprasad, Abhinay	
<b>SHIFTiKO – a scalable inducible gene knockout system for Plasmodium falciparum</b>	143
Ramon Zamorano, Gala	
<b>The protein landscape of the chromatin states in P. falciparum parasites</b>	144
Rashpa, Ravish	
<b>The Skp1-Cullin1-FBXO1 complex is a pleiotropic regulator required for the formation of gametes and motile forms in Plasmodium berghei</b>	145
Reyes, Raphael	Presenter: Bunnik, Evelien M.
<b>Broadly reactive antibodies can inhibit the binding of PfEMP1 to the endothelial receptor EPCR</b>	146
Ribot, Nathan	
<b>A novel type of asexual multiplication of Plasmodium oocysts?</b>	147
Rumaisha, Rumaisha	
<b>Chaperonin activity of Plasmodium prefoldin complex is essential to guard proteotoxic stress response and presents a new target for drug discovery</b>	148

Schepis, Antonino	Presenter: Kappe, Stefan	
<b>IFN-gamma Eliminates Plasmodium Liver Stages Via Non-Canonical Autophagy</b>		149
Schmitz, Yasmin		
<b>Plasmodium falciparum ATG18 and FCP as potential regulators of food vacuole membrane dynamics</b>		150
Seefeldt, Leonie		
<b>Imaging-based quantification of P. falciparum invasion into genetically modified erythroid host cells</b>		151
Serrano-Durán, Rafael		
<b>A novel CRISPR approach to study essential gene function across the human malaria parasite life cycle</b>		152
Sharma, Manish		
<b>Exploring the biochemical and functional role of malaria parasite Raf kinase inhibitor protein (PfRKIP).</b>		153
Sheokand, Pradeep Kumar		
<b>Function, structure and mode of inhibition of the Atovaquone target complex III in Plasmodium falciparum and Toxoplasma gondii</b>		154
Shibu, Mohini Anjna		
<b>Role of PHIST protein in knob formation</b>		155
Siau, Anthony	Presenter: Preiser, Peter R.	
<b>Comparative Spatial proteomics of Plasmodium infected erythrocytes</b>		156
Siddiqui, Ghizal	Presenter: Creek, Darren J	
<b>Cellular resistance to artemisinin is associated with decreased artemisinin activation and increased glutathione levels in Plasmodium falciparum</b>		157
SINGH, POOJA		
<b>Elucidating the roles of host transcription factors in malaria liver stage parasite development</b>		158

Singla, Shamit	
<b>Imaging cerli1 and 2 interacting partners during Plasmodium falciparum merozoite development.</b>	159
Sinha, Abhinav	
<b>Sulfadoxine-pyrimethamine drug resistance markers hint malaria drug policy shift in India</b>	160
Skorokhod, Oleksii A.	
<b>Cytochrome CYP4F1 and 4-hydroxynonenal conjugation in malaria pigment hemozoin-fed monocytes inhibits <math>\omega</math>-hydroxylation of OH-PUFAs</b>	161
Sparkes, Penny	
<b>Is mitochondrial respiration essential for male gametogenesis in P falciparum?</b>	162
Steel, Ryan W. J.	Presenter: Boddey, Justin A.
<b>Sporozoite infection and drug treatment with a novel plasmepsin IX/X inhibitor arrests liver merozoites and confers sterile immunity to malaria</b>	163
Stürmer, Vanessa	
<b>Progeny Counter Mechanism in Malaria Parasites is linked to extracellular Resources</b>	164
Suarez Cortes, Pablo	
<b>PfGEST is a conserved protein involved in the release of secretory organelles of P. falciparum transmissible stages.</b>	165
Tavella, Tatyana	
<b>Characterization of erythroblast infection by Plasmodium falciparum</b>	166
Tchongwe Divala, Lizzie Bridget	
<b>Elucidating a putative role of PfNT1 in malaria transmission</b>	167
Theodoridis, Liana	
<b>Investigating the antimalarial activity of novel heterospirocyclic compounds in P. falciparum parasites</b>	168

Theodoridis, Liana		
<b>Investigating the antimalarial activity of novel heterospirocyclic compounds in <i>P. falciparum</i> parasites</b>		169
Thomas, James		
<b>Unravelling the role of the apical membrane antigen-1 cytoplasmic domain during <i>Plasmodium</i> merozoite invasion of erythrocytes</b>		170
Thommen, Basil		
<b>FKBP35 secures ribosome homeostasis in <i>Plasmodium falciparum</i></b>		171
Tiwari, Aparna	Presenter: Sinha, Abhinav	
<b>Severe malaria and risk of hypertension in India – an evolutionary connection?</b>		172
Toth, Veronika		
<b>Mutational analysis of <i>Plasmodium falciparum</i> vacuolar iron transporter PfVIT uncovers potential mechanisms that regulate its function</b>		173
Ubiaru, Prince		
<b>Genetics of the interaction between <i>Plasmodium falciparum</i> and <i>Anopheles albimanus</i></b>		174
Varma, Neelakshi		
<b>Dynamic protein ubiquitination by USP1 is essential for malaria transmission</b>		175
Verdaguer, Ignasi		
<b>Ubiquinone biosynthesis inhibition in malaria parasites</b>		176
Vieira, Taís	Presenter: Moraes Barros, Roberto	
<b>MOLECULAR CHARACTERIZATION OF <i>PLASMODIUM FALCIPARUM</i> AND <i>PLASMODIUM KNOWLESI</i> GAMETOCYTES USING SINGLE CELL RNA SEQUENCING</b>		177
Villegas, Alejandra		
<b>Breaking out: egress of malaria parasites requires a putative glycosyltransferase</b>		178

Viola, Cristina	
<b>Towards the structural characterisation of an immunoregulatory interaction in <i>Plasmodium vivax</i> malaria</b>	179
Votborg-Novél, Lasse	
<b>Single cell transcriptional profiling of dry and wet season <i>Plasmodium falciparum</i></b>	180
Walz, Annabelle	
<b>In vivo testing of <i>Artemisia afra</i> for antimalarial activity</b>	181
Whitehead, Joe	
<b>Investigating the immunoregulatory role of the <i>Plasmodium vivax</i> VIR family</b>	182
Wirjanata, Grennady	
<b>Identification of an inhibitory pocket in falcilysin bound by clinically relevant drugs and novel compounds provides a new avenue for malaria drug development</b>	183
Yamamoto, Yutaro	
<b><i>P. falciparum</i> – <i>P.vivax</i> bivalent vaccine development using LC16m8Δ/AAV viral vectors platform</b>	184
